GREEN TREE FROG

Hyla cinerea

ORIGIN: Green tree frogs are native to the south-eastern United States; from Florida north to Delaware and West through Louisiana and Kentucky. Their habitat varies greatly, and they are equally comfortable in populated areas and forests provided there is standing water and vegetation for shelter.

SIZE: Green tree frogs reach an average adult length of 1.5 inches to 2.5 inches, and males are typically smaller than females.

CAGING: Green tree frogs will thrive in a variety of plastic and glass cages. A 10-gallon aquarium is large enough to house up to six adult frogs.

SUBSTRATE: Green tree frogs are arboreal and typically do not spend time on the cage floor. A substrate that maintains humidity such as peat moss, orchid bark, or mulch is ideal and provides for live plants. Alternately, clean play sand can be placed on the cage floor, saturated with water, and a depression made to form a small 'pond.'

TEMPERATURE: Green tree frogs are a temperate species and do not require any supplemental heat. They will thrive in standard household temperatures.

LIGHT: Green tree frogs do not require any special lighting. However, providing full-spectrum fluorescent lights will benefit the frogs as well as any plants in the cage.

WATER: Green tree frogs should be provided with fresh, clean water at all times. A small, shallow water bowl should be used. In addition, the cage should be misted at least once daily to maintain humidity levels which are comfortable for the frogs.

DIET: Green tree frogs feed on a variety of commercially available feeder insects including mealworms, crickets, and wax worms. Prior to feeding, insects should be dusted with a vitamin and mineral supplement powder for reptiles.

RECOMMENDED SUPPLIES

- Glass or plastic enclosure
- Secure lid for enclosure
- Substrate as detailed above
- Literature about tree frog husbandry
- Hiding area such as cork bark or imitation rock
- Live or artificial plants
- Shallow water dish
- Vitamin and mineral supplement
- Spray bottle

OPTIONAL ACCESSORIES

- Fluorescent light
- Colored incandescent bulb for nighttime viewing
- Decorative cage background
- Misting or drip system

SMALL ANIMAL & REPTILE REPLACEMENT GUARANTEE
